List health clearances or provide copies

WAS BRED TO OUR STUD DOG SOUL, ON DATE(S) _____ Natural breedings.

STUD FEE \$1200.00 USD Breeding deposit: On arrival, the first \$200.00 service charge is required (this is non-refundable and will be applied towards the stud fee).

ELECTION BY SOUL OWNER/AGENT OF PICK OF LITTER IN LIEU OF

STUD FEE yes _____ no _____ (check one)

CONDITIONS OF SERVICE:

Prior to breeding, documentation of Hip Xray evaluation/certification, a current CERF certificate, and AKC/UKC registration certificate are required. In addition, complete vaccinations including kennel cough, and general health certificates are required. For natural breedings a brucellosis test within 60 days of arriving at the kennel is required.

If any diagnostic testing is deemed necessary (i.e. vaginal smears, progesterone tests or artificial insemination) this cost will be the responsibility of the owner of the bitch. This cost will be payable upon the pickup of the bitch after completion of the breeding or by prior prepayment arrangement with the vet's office. A copy of this agreement along with the copies of SOUL 's certifications will be supplied when the bitch is claimed.

If the bitch fails to be in whelp (pregnant), the owner must notify SOUL's owner/agent no later than seventy (70) days after the date of the first breeding date, or one week after the pups are expected. The owner of the bitch is responsible for the transportation to and from the place of breeding and any and all associated costs. There will be an additional charge for a pickup and delivery from any airport of \$25 each way.

The first five days of boarding are at no charge, additional days are \$10 per day. Three ties in all natural breedings will be attempted. If for any reason a natural tie can not be accomplished after notifying the bitch owner and at the bitch owners cost a collection by the vet and an artificial insemination will be performed.

If there is a request for frozen semen, this effort and cost will be solely negotiated with SOUL 's owner/agent. All costs associated with the rental and charging of the liquid nitrogen vessel, Fed-Ex shipping costs of the vessel both to

the recipient and return of the vessel back NOAH, Leesburg, VA will be the responsibility of the bitch owner. We will ship the semen anywhere at your request. There is a fee of \$100-\$120 to do a semen relocation and charge a shipping tank with liquid nitrogen. There will also be FedEx charges to ship the semen and to return the shipping tank (\$200-300 estimate). The female owner requesting the semen pays for the relocation and Fed Ex charges of approximately \$300 to \$420 depending on their location **in addition** to the regular stud fee of \$600.00. The same stipulations apply for fresh chilled semen, all costs for this are to be paid by the owner of the bitch.

SOUL's owner/agent stipulates that a litter is considered three (3) or more live puppies 72 hours after birth; anything less than three puppies; a return service will be granted within one year of this breeding with no additional stud fee charged. If a puppy is to be received in lieu of the stud fee, the choice will be made when the puppies are 7 weeks old.

The balance of the stud fee is due upon the presentation of the litter registration form. The form will not be signed until the stud fee balance is paid in full. If the agreement was based on the receipt of a puppy in lieu of the stud fee, the litter registration form will be signed upon possession of the puppy.
